

# Ugandan girls miss at least 12 weeks of schooling each year, due to lack of sanitary protection

## Can you help a girl return to full time education?

By donating £3, £5 or £10 each month by standing order they can be free to go outside the home and go to school. A little extra also will provide medication for malaria or typhoid which these children suffer from. Malaria still kills.

Please contact [enquiry@mityanacharity.org](mailto:enquiry@mityanacharity.org) for further information

(Don't forget to opt for Gift Aid if you are a UK taxpayer)
